

**NEXSPAN2™
H SERIES**

FOR ALL THINGS FASTENING.

CUSTOMER SERVICE: 888.859.6060 | SALES@ALLFASTENERS.COM

Allfasteners' NexSpan2™ H Series is ideal for overhead hanging applications in mechanical projects, providing secure and reliable support for heavy loads. Ease of installation and long-lasting performance in demanding environments is what you get with NexSpan2™.

NexSpan2™ is perfect for supporting HVAC systems, piping, and other mechanical equipment. NexSpan2™ utilizes universal clamps to securely attach to the ceiling, ensuring a stable and robust connection.

PATENT PENDING

APPLICATIONS

- For installing in challenging environments.
- Data centers
- Plant rooms
- Waste Transfer Stations
- Pipework Support Frames
- Heavy Duty Roof Frames
- Overhead Hanging/Trapeze Applications

BENEFITS & FEATURES

- Similar loading properties to welded steel frames.
- No on-site welding needed.
- No need for heavy lifting equipment.
- Suited for installation in challenging environments.
- Assembled with impact driver or torque wrench only.
- Compact packaging allows for simple transport in the back of a van.
- Made to AISC standards
- Capacities by P.E. Structural Engineer
- Cost effective
- Made in the USA.

THE IDEAL STRUT CHANNEL REPLACEMENT

Our NexSpan2™ H Series is revolutionizing the way construction professionals approach hanging and trapeze applications. Unlike traditional strut channels, NexSpan2™ H Series offers a more flexible and efficient installation process. Its lightweight design ensures ease of handling, reducing labor time and costs while maintaining the strength and durability required for heavy-duty applications. The system's modularity allows for quick adjustments and modifications, catering to various project needs without compromising on performance.

NexSpan2™ H Series' innovative features make it an ideal alternative to conventional strut channels. Its sleek profile not only enhances the aesthetic appeal but also maximizes space efficiency. This advanced solution is engineered to withstand significant loads, providing reliable support for electrical and mechanical systems, HVAC units, and other suspended components. By incorporating NexSpan2™ into your construction projects, you can achieve superior outcomes with minimal effort and enhanced safety.

UNIVERSAL CLAMPS

The NexSpan2™ H Series is designed for overhead applications and can be securely suspended using universal clamps, ensuring a reliable installation.

Available in three sizes, these clamps perfectly match the corresponding H Series sizes for seamless compatibility.

WHY MAKE THE CHANGE

- Lightweight and easy to handle, reducing labor time and costs.
- Modular design allows for quick adjustments and modifications.
- Strong and durable, capable of supporting heavy loads.
- Sleek profile enhances aesthetic appeal and maximizes space efficiency.
- Ideal for supporting electrical and mechanical systems, HVAC units, and other suspended components.
- Provides reliable and safe hanging solutions for various construction needs.
- Simplifies the installation process compared to traditional strut channels.
